MANAGEMENT DISCUSSION AND ANALYSIS

Economic agenda remains in the forefront for India's government

The year FY2017 saw the BJP-led NDA government take the bold step of demonetization, pulling out a large portion of India's currency out of circulation to curb black money and corruption. While the economic growth slowed down temporarily during the December quarter, the overall pace of growth since the last three years remains robust, around the 7% mark. The Central Statistics Office (CSO) estimates India's GDP growth at 7.1 % for FY2017, largely aided by the strong consumption. The government pushed some reform initiatives to improve business climate and promote growth, the prominent ones being the Goods and Service TAX (GST) and FDI liberalization in certain sectors. However, the manufacturing sector is yet to see an uptick, with the Manufacturing PMI index of Nikkei and HIS market largely flat during the year. Nevertheless, the index did recover from the slump witnessed during the demonetization period. On the political front, the BJP won the crucial state elections in Uttar Pradesh, India's most populous state, as well as the state elections in Assam, Manipur and Goa. This should augur well for its reform agenda, as and when the composition in the Rajya Sabha is revised. The Indian rupee strengthened by 2% in FY2017 to close at Rs. 64.84 to the USD, after falling 6% in the previous year FY2016.

The Equity Markets in FY2017

The large-cap benchmark, Nifty 50, rose 18.55% YoY in FY2017 to close at 9174 points, after declining 8.86% YoY in FY2016. The multi-cap benchmark, Nifty 500, rose 23.91% for the year to close at 7995 points. The indices delivered positive returns during each quarter of the year except in Q3FY2017, when it was impacted by the demonetization news. However, the economy has since shown signs of recovery. Following net outflows by FIIs from Indian equities during FY2016, the year FY2017 saw strong net inflows. However, it was still lower than the levels seen during FY2013 and FY2015. DII saw net inflows for the 2nd consecutive year, although this year was subdued as compared to FY2016. The DII flows were largely led by renewed interest in equity mutual funds by Indian households, who are increasingly viewing it as a long-term savings vehicle delivering higher inflation-adjusted returns as compared to fixed income products. The period following demonetization only reaffirmed the shift in household savings from physical assets to financial assets, which augurs well for firms like us. NSE market capitalization stood at Rs. 119.78 lakh crores as of March 2017, up 28.66% for the year. The long term performance of India's market capitalization remains strong, with its 10- year CAGR at 13.53%.

BROKING BUSINESS

Nifty reached its peak high of 10,000 during the year. The Indian stock market has increased over the last year, benefitting from surging foreign capital inflows. India now represents one of the sparks in the world economy and the only major country not to suffer a growth downgrade by the IMF. But brokers continue to shut shop despite market boom, the surge in the market has failed to stem the trend of small-sized brokers shutting operations. The trend is towards digitalization of every aspect of the business. The company will have to invest substantially and take to e-commerce route to remain viable and find a niche for

itself. The improving performance of the economy was reflected in the Stock Markets. With the advent of new government parliament and passing of key legislations like G.S.T etc. at the centre the markets have a new ray of hope. The volumes have picked up to new highs. The HNI segment which is the core of your company client base has returned back to the markets. The new government has positively affected the returns of FII's & HNI's. The volumes are led by DII's who are overweight on equities.

OUR BROKING BUSINESS

Backed by strong research and advisory capabilities, our broking business covers the entire spectrum of participants in the capital markets ranging from FIIs to Domestic institutions, HNIs to mass retail. This large base is addressed through distinctly positioned business and personal relationships.

The company expects to focus on building relationship with new associates while strengthening the bonds with existing ones.

We would be recruiting fresh blood across various product lines like currency, derivatives, interest rate future etc.

The company's focus on high net worth individuals would continue to remain the cornerstone strategy for the company.

We will harness our relationship with corporates and have strategic tie-up in key international markets to strength our niche position in the capital markets. Our endeavor would to have at least 2500 clients with a portfolio at least Rs. 2.5 crores each. This would give us a portfolio of a \$ billion a crucial landmark in a \$ trillion market capitalization.

Your company is trying to increase its customer base. It has started focusing on individual clients to stay afloat in volatile markets.

The currency segment has shown promise. With the recent volatility in the rupee we expect more and more clients to hedge their positions in the future.

STRONG CORPORATE ACCESS

Corporate access activities were carried out throughout the year. Our strong relationship with managements of leading public sector bank helps corporates in the fund raising activities. With Banks under stress this activity has taken a backseat.

India continues to lead as one of the favored investment destinations for global funds. Our strong clientele base spread across the globe and our constant endeavor to provide best in-class research, advice, corporate access and execution support will also help us to tap these emerging opportunities and gain higher market share across all the institutional client segments.

ASSET MANAGEMENT (DISTRIBUTION)

SEBI's move to allow Stock Exchanges to offer trading platform for Mutual Fund has opened out a complete new segment of intermediation. The Management has taken a decision to distribute Mutual funds through its associate company My Money Credits (P) Ltd.

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements of MY MONEY SECURITIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of My Money Securities Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India” (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".
